Bosch Global Supplier Award 2025

October 16, 2025

Bosch maintains supplier relationships in approximately 60 countries. The company sources materials and services globally from around 35,000 suppliers. The majority of resource input in supply chains comes from the purchase of components – mostly in the form of semi-finished or finished parts. Our purchasing portfolio also includes, for example, raw materials, merchandise, software, services, and operating equipment. In 2024, the value of the Bosch Group's purchasing volume was around 50 billion Euros.

Suppliers are not only key providers but also vital development and innovation partners for Bosch, contributing significantly to our competitiveness and sustainability goals. Bosch actively fosters long-term partnerships with its suppliers to successfully pursue these objectives together. Partners who excel in close collaboration can participate early in Bosch's strategies and development projects, aligning themselves for future success. This collaborative partnership between suppliers and Bosch also strengthens resilience in global supply chains and forms a crucial foundation for a well-functioning economy.

Every two years, Bosch honors the best of its global suppliers with a "Bosch Global Supplier Award." This year, the awards ceremony was held under the motto "CHALLENGE ACCEPTED – Resilient Partnerships. Sustainable Future." This theme acknowledged the successful collaboration under particularly demanding conditions.

The technology and services company presents the award for outstanding performance in the manufacturing and delivery of raw materials, products,

or services. Awardees were selected based on various criteria across categories including Indirect Purchasing, Direct Purchasing, Services, as well as Raw Materials and Components. Bosch has been rewarding the peak performance of its suppliers with this industry-renowned award since 1987.

In the special category "Sustainability", the Bosch Group recognized three companies demonstrating exceptionally high commitment to sustainability and climate protection. For the first time, a special award in this category was also presented to a small and medium-sized enterprise (SME). Finalists in this category possess at least an "A-" rating in the renowned Carbon Disclosure Project (CDP) and contribute significantly to climate neutrality. An interdisciplinary jury thoroughly evaluated the suppliers' application on sustainability performance.

In 2025, 49 suppliers from 14 countries were recognized. Award winners hail from Asia-Pacific (19) and Europe (30), including Germany (18).

Award Winners BGSA-25

Category: Indirect Purchasing

- Abraxos Holding AG (Meister Abrasives AG & Alfons Schmeier GmbH & Co.)
- Balluff GmbH
- Bertrandt Technikum GmbH
- Computacenter AG & Co. oHG
- EVOMOTIV GmbH
- Front Row Europe GmbH
- HP Inc.
- ICT AG
- LOCCIONI
- SPEA S.P.A.
- STIWA Automation GmbH
- Winkels Interior Design Exhibition GmbH

Category: Direct Purchasing

- ALLAN & RIKKE CLEANING EQUIPMENT (SHANGHAI) CO., LTD.
- Baoshan Iron & Steel Co., Ltd.
- Baotou Tianhe Magnetics Technology Co., Ltd.
- Centrotec SE - Centrotherm Systemtechnik GmbH
- CeramTec GmbH
- Cyntec Co., Ltd.
- Diehl Metal Applications GmbH
- GN ALTECH PRIVATE LIMITED
- GST GmbH german sensor technology

- Hangzhou Heatwell Electric Heating Technology Co., Ltd.
- IHI Ionbond AG
- Infineon Technologies AG
- Iron – Tech Kft.
- Isabellenhütte Heusler GmbH & Co. KG
- Jiangsu Tenpower Lithium Co., Ltd.
- Jiaxipera Compressor Co., Ltd.
- Marks Engineering Works
- Ningbo Great Group Co., Ltd.
- NIRA Dynamics AB
- NXP Semiconductors B.V.
- OECHSLER AG
- Paul Bippus GmbH & Co.KG
- Pressofusione Saccense S.r.l.
- QUALITY (LIAONING) INDUSTRIAL CO., LTD.
- Realtek Semiconductor Corp.
- SCHOTT AG
- Sebang Global Battery Co., Ltd.
- Shenzhen H&T Intelligent Control Co., Ltd.
- SICC Co., Ltd.
- Syensqo SA
- Taizhou Ruida Machinery Co., Ltd
- Zhenjiang Xianfeng Automobile Components Co., Ltd.
- Xiamen Intretech Inc.
- YORGLASS CAM SAN. VE TİC A.Ş.
