

## 1. We want you in our team

In this privacy notice, we inform you how your personal data is processed in the applicant management process at Bosch Group. Additionally we inform you about your rights under applicable data privacy laws.

The personal data you have entered in our applicant management system will be processed by the relevant legal entities of the Bosch Group for the purpose of processing your application and with the objective of filling vacant positions in one of the companies at Bosch Group.

At Bosch Group, the process of filling vacancies involves several members of our HR departments, together with the respective managers and if required also the members of the respective department responsible for the recruitment process. As these people may belong to different companies of Bosch Group, your data may be exchanged within the Bosch Group all over the world.

## 2. Bosch respects your privacy

The protection of your privacy throughout the course of processing personal data as well as the security of all business data is an important concern to us. We process personal data collected in the applicant management process for a job in the Bosch Group confidentially and only in accordance with statutory regulations.

Data protection and information security are included in our corporate policy.

## 3. Controller

The Bosch Group legal entity to which you submit your application for filling a vacant position is responsible for processing your data. You will find in *Annex 1* the contact details of the Bosch legal entities in Spain and the Bosch Group legal entities.

## 4. Applying for positions advertised on our job portal

The easiest way to apply for a job at Bosch is a direct application for a position advertised on one of our job portals. Your application will be assessed as per our internal processes.

Paper applications are entered manually in our applicant management system and then either returned to you or destroyed. You will receive an e-mail allowing you to activate your application once it has been manually entered in the system. If you do not activate your application within 30 days, your data will be deleted from our applicant management system and you will be removed from the selection process.

You also have the option to make use of your own personal network and submit your application via an associate of the Bosch Group. Simply forward your résumé to the associate, who will then upload it to the applicant management system.

You will then receive an e-mail allowing you to activate your application. If you do not activate your application within 30 days, your data will be deleted from our applicant management system and you will be removed from the selection process. We can recognize that a Bosch associate has recommended you. The associate in question can see an overview of the status of your application, but cannot see any further details of your application process.

We keep you up to date on the status of your application by e-mail. You are free to edit your data or withdraw your application at any time during the application process. To do so, you require a SmartRecruiters profile, which you can create on the SmartRecruiters website.

During the application process, you will be alerted via e-mail about any other vacancies that may be of interest to you. If applicable, we may also offer you membership in a Bosch applicant community.

## 5. Membership in a Bosch applicant community

If you are invited to join one of our Bosch applicant communities, you can publish your personal data to all HR departments of the Bosch Group. You are free to accept or reject the invitation to this community. If you accept, it enables us to inform you about the future vacancies and make your personal data available for these vacancies. As a member, you also have an option to contact HR managers directly, and will receive recruitment marketing information and invitations to events. You may delete your profile in the Bosch applicant community at any time.
